Subject: SIRAS TOMS Update 8/27/2025

Hi All,

TOMS just recently posted updates for the CAASPP and ELPAC test settings template files to be used for the 2025-26 academic year.

We will have the SIRAS export presets updated shortly.

Please hold off using the exports until the buttons are updated with the (2025/26) label.

FYI, these exports will work for 504 records as well.

We appreciate your patience with this update.

Kind regards,

Brian
