Subject: SIRAS Update 12/1/2025

Hello All,

Two main items today:

- DRDP not started incomplete
- The original Fall Census day!

Today is 12/1/2025!

12/1 used to be the main unduplicated Fall 1 count census date.

If your district director is having you do monthly or quarterly data extracts for SIRAS, today is the day to do them!

<https://padlet.com/siras/siras4census-kcspouh60f30skl2>

DRDP rating evaluations **MUST** be completed before the end of December.

Transcribed ratings are due for reporting next year.

Error reports for ratings entered so far were posted earlier today.

As of today, there are over 4000 DRDP not completed across 117 districts!

Transcriptions of completed ratings were due last month.

If your district is on this list, it means either:

1. Required DRDP ratings have not been done at all.
2. Or if done, have not been transcribed into SIRAS yet.

Please use the below link to download the DRDP Not Completed list to see if your district is on this list.

Please make this a priority today as the break is right around the corner.
