Subject: SIRAS Update 9/4/2026 - Testing Updates

Hi All,

Two main updates today, and this is my older list being retired soon. Please forward to testing coordinators who may not be on this list.

I am working on completing my more comprehensive list that I sent notification about last June.

1. DRDP
2. TOMS

First, DRDP 2025 is mostly ready in SIRAS.

We have not completed final testing yet, so please have staff hold off trying to create DRDP ratings records in SIRAS for the time being.

We will email you when that area is ready.

Second, TOMS batch upload templates.

The 26-27 CAASPP and ELPAC export templates are ready in SIRAS. There were minor updates plus the addition for NEA Patty Paper.

You can find them under /tools/data export/export presets.

We still don't have a direct way to test them in a TOMS sandbox, as there isn't one. AFAIK

So please forward this to your testing staff to test uploading with a smaller data set, like one school.

See if things post as expected.

If you get any unknown errors or data doesn't update as expected, please reach out to support@sirassystems.com and let us know.

Kind regards,

Brian

Export Presets	
Student Data	Student Data (Scheduled Export Format)
Service Data	Services by Type All Services
SBAC/CAA Test Accommodations (2026/27)	ELPAC Test Accommodations (2026/27)
DRDP Export	Primary Contacts
